16	OTHER INFORMATION
-----------	--------------------------

This sheet supplements but does not replace our technical information sheet. The information is provided for the guidance the user of the product. The information contained in this sheet is based on the state of our knowledge relating to the product concerned, on the date shown. It is provided in good faith. In addition, users' attention is drawn to the risks that may be run when a product is used for purposes other than those for which it is designed. This sheet does not exempt the user from acquainting himself with and applying all the legislation regulating his operations. He shall be solely responsible for taking precautions connected with the use he makes of the product. It should be noted that any chemical product may present risks and must therefore be used with care. The purpose of mentioning all the regulations and orders above is merely to assist the consignee to fulfil the obligations incumbent upon him. This list should in no way be considered exhaustive. It is the consignee's responsibility to ensure that he has no obligations under any other legislation than that cited.
