

Phonak Naída

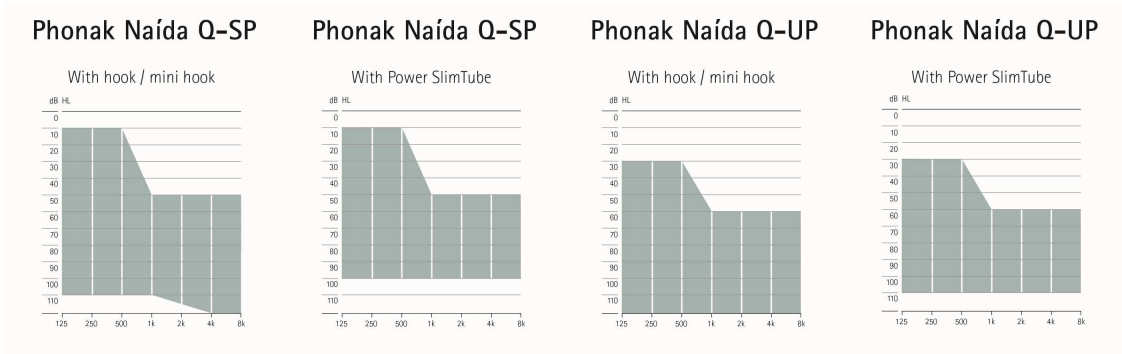

Power SlimTube Information

	Standard Tube	Power SlimTube	SlimTube
Outer diameter	3.0 mm	2.0 mm	1.4 mm
Inner diameter	2.0 mm	1.4 mm	0.8 mm

Compatibility:

- Phonak Power SlimTubes are compatible with **Naída Q SP/UP** and **Naída S SP/UP**
- Power SlimTubes are available in size 00, 0, 1, 2 and 3 (right and left)
- They must be fit with an earmold – a dome will not fit on the Power SlimTube

- For optimal results, we do not recommend fitting patients with hearing loss outside of these fitting ranges
- In Phonak Target™ fitting software, be sure to select Power SlimTube under the Acoustic Parameters section and specify the length of the tube for optimal fitting

Power SlimTube Information

Recommended Ordering Process:

- Use the Phonak power measuring tool [026-0417]

- Measure to the top of the ear canal opening
- Phonak has partnered with **Westone** to build earmolds for the Power SlimTube
 - Any earmold style and material can be ordered with the Power SlimTubes
- To place an order, simply write **Style 81** or **Phonak Power SlimTube mold** in the Special Requests/Information Section of the current Westone order form
 - It is also important to indicate the length of tube you need (00, 0, 1, 2, 3)
- Westone will tube the earmold with your specified length
- The cost for a Phonak Power SlimTube and earmold is **\$42**
 - This price includes the tubing, the vent (if requested) and color
 - Other options such as Slick-Sil will be charged as normal

Ordering Power SlimTubes from other Earmold Manufacturers:

- Westone is the only earmold manufacturer that stocks Phonak Power SlimTubes
- If you choose to order from another earmold manufacturer, please note:
 - The recommended sound bore size is 1.9 mm for silicone material (friction fit)
 - Glue is not recommended for silicone material
 - The recommended sound bore size is 2.0 mm for hard acrylic material
 - Loctite 401 glue is recommended for hard acrylic material
